The Village of Kimberly Newsletter

Summer 2021

President's Point of View

Sign, Sign, Everywhere a Sign...Kimber...Y-ield?

In recent weeks, the village has seen significant "growth" along many streets as yield signs with eye catching orange flags popped up and the addition of two four way stops along Second and Third Street have garnered significant attention. Please know that these additions did not happen nilly-willy; allow me to explain a bit while understanding that change is never fun for any of us.

After receiving many calls over the past four years with complaints of cars traveling too fast and cars not yielding at uncontrolled intersections, the staff explored further and worked in concert with Fox Valley Metro Police Department to take a deeper look at traffic controls throughout the village. Now, I know full well that many of you reading this were "raised" understanding that traffic flowing east and west on First, Second, and Third Street would not have to yield; but oh, how times have changed! Consider that "back then" there were typically one and maybe two vehicles per household and there were limited numbers of cell phones to distract a driver. Today, the dynamic is changed and with it, accidents that can, we trust, be preventable with these additions. Research and "best practices" for creating the safest passages through a community encourage travelers to use the arterial streets. Kimberly Ave, Maes Ave, Railroad, Kennedy and Washington. Adding stops along Second and Third Street was recommended as one of those best practices as well as it aligning with four way stops reaching out from the school traffic areas.

Streets, Sewers, SAFETY and Self are the four pillars of priority in governance at the local level as I see it, and while change is not always welcome, I am hopeful that my brief explanation helps you to understand the reasoning for the action taken. If we eliminate one crash, or one bike rider from being struck, I am willing to pause along my vehicular journey. We will monitor things and continue to work at KEEPING our neighborhoods and the people in them safe!

In other news; it sure is exciting to look forward to this summer versus last! Ball fields will be filled as you receive this newsletter. The swim lake will open its doors to invite some sand between the toes and some relief from the heat this summer. Music will resonate from the Amphitheater and July 3rd will see the skies exploded with the splendor of the KFD Fireworks once again. After this pandemic year, I am hopeful that you will venture out and partake in all there is to enjoy in our beautiful parks system, engage in library programming, take a dip or watch the development grow!

Work is underway in the creation of the first overlook area within the mill site redevelopment. Eventually this area will be tied in with a walking and gazing trail that runs from the community bridge (and will connect into Combined Locks) and connects in to the west end of the development and Sunset Park. I encourage you to watch the progress near the Kaukauna Utilities operated dam.

Please share in congratulations to the Fox Valley Metro Police Department and the K9 fundraising committee for their efforts at surpassing their goal. These fundraising efforts covered all initial costs and will support the lifetime of the program. I am sure that you will have the opportunity late in 2021 to meet the new K9 member and handler Officer Sam Pynenberg and learn more about the benefits of this addition to the department.

My parting thought is that if you haven't, please consider vaccination. The fifteen month stretch was something none of us cares to endure again in our lifetimes. Be safe, be well, be helpful and happy and let's all celebrate what a great place Kimberly remains in which to live, learn, work and play!

Chuck Kuen,
Village President

All Village Offices, Departments and the James J. Siebers Memorial Library will be closed on **Monday, May 31st** in observance of Memorial Day and **Monday, July 5th** in observance of Independence Day.

These holidays will have no effect on garbage collection. However, for Memorial Day week ONLY, recycling pick up will be one day **after** your regularly scheduled day: Monday's route on Tuesday, Tuesday's route on Wednesday, Wednesday's route on Thursday and Thursday's route on Friday.

FIREFIGHTERS FOR FIREWORKS

SATURDAY
JULY 3RD
12PM—10PM

PROUDLY PRESENTED BY: SECURITY LUEBKE ROOFING INC.

SUNSET PARK, VILLAGE OF KIMBERLY
800 W. KIMBERLY AVENUE

Join the Kimberly Fire Department for our annual fireworks celebration! Food trucks, music, fun and games for all, and of course **FIRE TRUCKS!**

Kobussen will be running shuttles from JRG to the park. Limited handicap accessible parking will be available at Chefo's starting at 3PM. Overflow parking kindly provided by Fox Valley Christian Fellowship.

PARK & RECREATION DEPARTMENT

Summer Recreation Programs

- View all programs and register online at <https://kimberly.recdesk.com/Community/Program> OR check out our Special Events on Facebook @villageofkimberlywi
- **We still have openings in Soccer Tots!** Ages 3-4, Tuesdays from 9:15 – 9:45 at Roosevelt Park, program fee is \$10, all participants get a t-shirt.
- **Kid Stage Cinderella Summer Camp** – August 23rd – 27th at the Sunset Park Amphitheater from 1:00 p.m. – 3:00 p.m., Program fee of \$85 includes adult instruction and a production of Cinderella the final day of camp!
- **Karate America partnership program** – Thanks to our continued partnership with Karate America of Darboy, check out Kinder Kickers and Karate Basics! Courses offered for 4-5 year old's and children 6+. The exciting, yet disciplined classes focus a child's attention while improving the student's ability to learn. Kids get the excitement and fun they desire, and parents get the discipline, confidence and respect they want for their child. No one sits on the bench! Each person is treated as an equal and is trained to the best of his/her ability and potential. These courses are designed for students who have none or very little martial arts experience.
Session 1: June 17th—July 8th
Session 2: July 22nd—August 18th
Kinder Kickers, Ages 4-5, Thursday Classes 6:00 – 6:30 p.m., \$30/session.
Karate Basics, Ages 6+, Thursday Classes 5:15 – 5:45 p.m., \$30/session.
- **Canvas Painting** - Join instructor Hallie and create beautiful art! Participants are supplied with all materials and equipment needed to produce a work of art! Each class has a different theme—take one or take them all! Program fee is \$25, and is intended for participants ages 8 and up. Upcoming dates held at Shelter #1 in Sunset Park from 2:00 p.m. to 3:30 p.m. June 24th, July 15th, August 19th.
- **We continue to offer a partnership with GG Leagues** – come play with other participants in a Wisconsin Recreation League – Madden, Fortnite, Rocket League, and Super Smash Bros for ages 8+, registration ends June 28th, program fee: \$30

Reminder to Swimming Pool Owners:

By ordinance (525.97) all private residential swimming pools whether in-ground or above ground having a depth of 24 inches (2 feet) or greater must obtain an annual pool permit.

A full copy of the ordinance can be viewed on the village website at www.vokimberly.org.

Memorial Day Program

Monday, May 31st
@ 6:00 p.m.

Kimberly Amphitheater
Public Welcome

Sunset Beach

Opens June 4th – Aug. 22nd
12:00 p.m. – 7:00 p.m.

STREET DEPARTMENT

Recycling Information

SUMMER Scheduled WEEKS For Pick Up Are As Follows:

June	1-4	14-17	28 - July 1
July		12-15	26-29
August		9-12	23-26

Recycle It's Worth Repeating

The customer service department at Orion Services, the provider of the recycling service for Outagamie County, requests that any customers with questions pertaining to their recycling pickup should call their office at (920) 759-0501.

Outagamie County NO longer accepts SHREDDED PAPER as Recycling

Through trial and error, the Tri-County Recycling Facility has found that even if bagged, shredded paper tends to spill out and stick to sorting equipment and other recyclables and cannot be effectively recovered for recycling.

For households, we recommend the following:

1. Reduce the amount of confidential documents that are coming into your home. Sign up for e-billing, online statements and emailed receipts.
2. Shred only the documents or portions of documents that are confidential. For instance, if you shred mail because it has your name and address on it, rip out and shred the portion with that information and recycle the rest of the document.
3. Take confidential documents to a shred event – typically sponsored by local financial institutions and held once or twice a year.
4. Take confidential documents to a local office store or shipping store that offers paper shredding as a service.
5. If you shred your own documents, the shredded material can be composted or used as animal bedding – keep any plastic materials out of it.
6. As a last resort, household sourced shredded paper may be bagged and landfilled. Do NOT put this in your recycling bin.

LAWN & WEED NOTICE TO PROPERTY OWNERS IN THE VILLAGE OF KIMBERLY

Pursuant to the Village of Kimberly Code of Ordinances, notice is hereby given to each person who owns, occupies, or controls land in the Village of Kimberly, Outagamie County, State of Wisconsin, to destroy all noxious weeds and to cut or remove the accumulation or growth of weeds, grass, brush or other rank or offensive vegetation which has grown to a height greater than eight (8) inches.

Owners who do not maintain their property will be charged \$75.00 per hour, plus equipment usage. A minimum of one hour will be charged to cut noxious weeds or grass 8 inches or longer.

Danielle Block,
Administrator

Grass Cutting Reminder

When cutting your lawn near the street, try to make your first two passes with the discharge chute directed away from the street. Grass can clog up storm sewer catch basins, which doesn't allow the street to drain properly. Water that drains from the street and into storm sewers ends up in the river, along with all the grass clippings. Grass clippings also hold fertilizer and pesticides that contaminate streams, rivers, and lakes. The DNR encourages leaving grass clippings on your lawn, as they can act as good nutrients, as well as composting your lawn clippings. Residents who blow grass clippings into the street are subject to a citation per ordinance 430-16, 430-17.

Tree Care For Newly Planted Trees

The Village of Kimberly street department will care for and water newly planted trees for the first 2 years. During the third season we will remove the stakes, mulch and reseed around the tree. After that, it will be the abutting owner's responsibility to water and care for the seeding to encourage turf growth. If during the 3rd year, we have periods of drought, we encourage residents to water trees to continue encouraging the growth and establishment of the newly planted trees.

J.J. MAGEE LLC

FIRE DEPARTMENT

Firefighters for Fireworks

We would like to thank Security Luebke Roofing for generously stepping in as the major sponsor for the foreseeable future along with the wonderful support in the past from US Venture. We truly appreciate their support of this community event. The fireworks are planned for July 3rd with the rain date of July 5th.

The annual corn hole fundraising tournament at Tanner's has been scheduled for August 14th. Let's all hope COVID doesn't cause us to cancel again.

Recreational Fires

It's that time of year where many people like to sit by the fire on a nice summer night. Please be responsible and courteous to your neighbors and abide by the burning ordinance. Can't remember it? There is a link conveniently placed on the Village website under the Fire Department section. To sum it all up, only burn clean fire wood. Do not burn yard waste, trash, or construction material. Also, do not use fuel, oil, or other accelerants to start the fire. Please be considerate of your neighbors who have their windows open and pay attention to the wind. Unfortunately all complaints must be responded to and disregarding the ordinance can result in fines. Let's all enjoy the nice summer nights.

A good resource for checking the fire danger is the Wisconsin DNR website <https://dnr.wi.gov/topic/ForestFire/restrictions.asp>. It is updated daily and you can see how high the fire danger is in your area, or where you are headed for the weekend or vacation.

Hazardous Waste Disposal

Please dispose of your hazardous waste materials at the Outagamie County drop off site. There is no charge for this service and they make it quick and convenient. It operates May through October. Please see the Outagamie County Solid Waste website for details. You must make an appointment. <https://www.recyclemoreoutagamie.org/appointments>. Waste oil and used oil filters can be disposed of at the Village drop off site.

Fire Extinguisher Inspection and Servicing

Many of you have fire extinguishers in your homes and garages. Don't forget to check them from time to time to ensure they are properly charged, the safety pin is in place, the hose is in good condition and everyone knows how to use it. If it needs service, there are local businesses that do this. J.F. Ahern Co, Cintas Fire Protection, Fire Services Plus LLC, and Summit Fire Protection are all in the area. Don't wait until you need it to find out there is a problem with it.

**KEEP YOUR PETS ON A LEASH!!! Ordinance change as of November 2020:
All dogs, cats or other domestic animals shall be kept on a leash
no longer than eight feet at all times when off the premises of its owner.**

In accordance with State Statutes and Village Ordinance, dogs must be licensed annually, and must be done so within 30 days of residency in the Village. 2021 dog licenses are now available at the Village Complex. There is a mail-in application below for your convenience. When applying for a dog license, owners must present the current rabies vaccination certificate. Every dog 5 months or older must have a current Rabies shot. Neutered and Spayed Licenses are \$7.00, intact Dog Licenses are \$12.00. Failure to license your dog may result in a \$124.00 citation per dog, issued by FVMPD. If you no longer have your dog, please contact the office so we may update our records.

Licensed dogs have an opportunity to participate in Bark at the Beach and Pooch Patrol. Please call the Park and Recreation Department at (920) 788-7507 for more information.

MAIL IN APPLICATION FOR DOG LICENSE

Owner's Name: _____ Phone: _____

Address: _____

Dog's Name: _____ Breed: _____

Color: _____ Circle one: Male/Female Neutered/Spayed/Intact

Neutered/Spayed Dog: \$7.00 • Intact Dog: \$12.00
Include a \$5.00 late fee if applying after March 31st

Complete application and mail to: **Village of Kimberly, 515 W Kimberly Ave, Kimberly, WI 54136** or deposit in **Payment Drop Box** located by the west entrance doors. **Include: Check or Money Order** made out to the Village of Kimberly, Current **Rabies Certificate**, **Must** enclose a self-addressed stamped envelope, license and paperwork will be mailed back to you.

Only one dog per form, make additional copies if needed. If you have any questions, please call 788-7500.

CONSUMER CONFIDENCE REPORT

Consumer Confidence Report Data Village of Kimberly Waterworks 2020 PWS ID: 44503426

The purpose of this report is to summarize the results of the water testing conducted on the Village of Kimberly water system during the calendar year of 2020. The report has been prepared to meet the requirements of the 1996 Safe Drinking Water Act (SDWA) adopted by Congress and to provide our customers with information about their municipal water system. We take pride in the quality of the drinking water supplied to our customers and continue to work diligently to assure the delivery of reliable and safe water. The Village of Kimberly Utility encourages public interest and participation in our Community's decisions affecting drinking water. For information on the water system, contact the Water Utility by telephone at (920) 788-7510 or by emailing to: water@vokimberly.org. Regular Utility Commission public discussion meetings are held on the first Tuesday of each month in the Council Chambers, located in the Village Hall at 515 W. Kimberly Ave, at 11:00am, Please contact the Village Administrator Office at (920) 788-7500 to have an item placed on the agenda or to make arrangements for reasonable accommodation.

Health Information

Drinking water, including bottled water, may reasonably be expected to contain at least small amounts of some contaminants. The presence of contaminants does not necessarily indicate that water poses a health risk. More information about contaminants and potential health effects can be obtained by calling the Environmental Protection Agency's safe drinking water hotline (800-426-4791). Some people may be more vulnerable to contaminants in drinking water than the general population. Immuno-compromised persons such as persons with cancer undergoing chemotherapy, persons who have undergone organ transplants, people with HIV/AIDS or other immune systems disorders, some elderly, and infants can be particularly at risk from infections. These people should seek advice about drinking water from their health care providers. EPA/CDC guidelines on appropriate means to lessen the risk of infection by cryptosporidium and other microbial contaminants are available from the Environmental Protection Agency's safe drinking water hotline (800-426-4791).

Source(s) of Water

Source ID	Source	Depth (in feet)	Status
1	Groundwater	760	Active
2	Groundwater	804	Active
3	Groundwater	740	Active

Educational Information

The sources of drinking water, both tap water and bottled water, include rivers, lakes, streams, ponds, reservoirs, springs and wells. As water travels over the surface of the land or through the ground, it dissolves naturally occurring minerals and, in some cases, radioactive material, and can pick up substances resulting from the presence of animals or from human activity.

Contaminants that may be present in source water include:

- Microbial contaminants, such as viruses and bacteria, which may come from sewage treatment plants, septic systems, agricultural livestock operations and wildlife.

- Inorganic contaminants, such as salts and metals, which can be naturally occurring or result from urban storm water runoff, industrial or domestic wastewater discharges, oil and gas production, mining or farming.
- Pesticides and herbicides, which may come from a variety of sources such as agriculture, urban storm water runoff and residential uses.
- Organic chemical contaminants, including synthetic and volatile organic chemicals, which are by-products of industrial processes and petroleum production, and can also come from gas stations, urban storm water runoff and septic systems.
- Radioactive contaminants, which can be naturally occurring or be the result of oil and gas production and mining activities.

In order to ensure that tap water is safe to drink, EPA prescribes regulations that limit the amount of certain contaminants in water provided by public water systems. FDA regulations establish limits for contaminants in bottled water, which shall provide the same protection for public health.

Detected Contaminants

Your water was tested for many contaminants last year. We are allowed to monitor for some contaminants less frequently than once a year. The following tables list only those contaminants which were detected in your water. If a contaminant was detected last year, it will appear in the following tables without a sample date. If the contaminant was not monitored last year, but was detected within the last 5 years, it will appear in the tables below along with the sample date.

Health effects for any contaminants with MCL violations/ Action Level Exceedances Contaminant Health Effects: Lead

Infants and children who drink water containing lead in excess of the action level could experience delays in their physical or mental development. Children could show slight deficits in attention span and learning abilities. Adults who drink this water over many years could develop kidney problems or high blood pressure.

Additional Health Information

If present, elevated levels of lead can cause serious health problems, especially for pregnant women and young children. Lead in drinking water is primarily from materials and components associated with service lines and home plumbing. Kimberly Waterworks is responsible for providing high quality drinking water, but cannot control the variety of materials used in plumbing components. When your water has been sitting for several hours, you can minimize the potential for lead exposure by flushing your tap for 30 seconds to 2 minutes before using water for drinking or cooking. If you are concerned about lead in your water, you may wish to have your water tested. Information on lead in drinking water, testing methods, and steps you can take to minimize exposure is available from the Safe Drinking Water Hotline or at www.epa.gov/safewater/lead.

The Village of Kimberly water system did not monitor for cryptosporidium or radon in 2020. State and Federal drinking water regulations did not require them to do so.

Wisconsin Department of Natural Resources

Safe, clean drinking water is what we expect when we turn on our faucets. The DNR Bureau of Drinking Water and Groundwater manages activities that affect the safety, quality and availability of drinking water to protect public health and our water resources. For more information please see: <http://dnr.wi.gov/topic/drinkingwater/>.

Definitions

AL: Action Level: The concentration of a contaminant which, if exceeded, triggers treatment or other requirements which a water system must follow.

MCL: Maximum Contaminant Level: The highest level of a contaminant that is allowed in drinking water. MCLs are set as close to the MCLGs as feasible using the best available treatment technology.

MCLG: Maximum Contaminant Level Goal: The level of a contaminant in drinking water below which there is no known or expected risk to health. MCLGs allow for a margin of safety.

MFL: Million Fibers Per Liter.

MRDL: Maximum Residual Disinfectant Level: The highest level of disinfectant allowed in drinking water. There is convincing evidence that addition of a disinfectant is necessary for control of microbial contaminants.

MRDLG: Maximum Residual Disinfectant Level Goal.

TCR: Total Coliform Rule.

pCi/l: Picocuries Per Liter (a measure of radioactivity).

ppm: Parts Per Million, or milligrams per liter (mg/l).

ppb: Parts Per Billion, or micrograms per liter (ug/l).

ppt: Parts Per Trillions, or nanograms per liter (ug/l).

ppq: Parts Per Quadrillion, or picograms per liter (ug/l).

Regulated Contaminants

Contaminant (units)	MCL	MCLG	Level Found	Range	Sample Date	Violation	Typical Source of Contaminant
ARSENIC (ppb)	10	n/a	1	0 to 1	2020	NO	Erosion of natural deposits; Runoff from orchards; Runoff from glass and electronics production wastes
BARIUM (ppm)	2	2	.013	.001-.013	2020	NO	Discharge of drilling wastes; Discharge from metal refineries; Erosion of natural deposits
FLUORIDE (ppm)	4	4	1.2	1.1-1.2	2020	NO	Erosion of natural deposits; Water additive which promotes strong teeth; Discharge from fertilizer and aluminum factories
NICKEL (ppm)	100	n/a	1.5	0-1.5	2020	NO	Nickel occurs naturally in soils, ground water and surface waters and is often used in electroplating, stainless steel and alloy products
Combined Uranium (ug/l)	30	0	.3	0 to .3	2020	NO	Erosion of natural deposits
SODIUM (ppm)	n/a	n/a	310	160-310	2020	NO	n/a
GROSS ALPHA, EXCL. R & U (pCi/l)	15	0	4.4	1.5-4.4	2020	NO	Erosion of natural deposits
RADIUM, (226 + 228) (pCi/l)	5	0	2.1	0 to 2.1	2020	NO	Erosion of natural deposits
GROSS ALPHA, INCL. R & U (n/a)	n/a	n/a	4.5	0 to 4.5	2020	NO	Erosion of natural deposits
HAA5 (ppb) Site B-	60	60	1	0 to 1	2020	NO	By-product of drinking water chlorination
TTHM Site (ppb) B-5	80	n/a	8.7	0-8.7	2020	NO	By-product of drinking water chlorination

Contaminant (units)	Action Level	MCLG	90 th Percentile Level Found	# of Results Above Action Level	Sample Date	Violation	Typical Source of Contaminant
Copper (ppm)	1.3	1.3	.13	0	2020	NO	Corrosion of household plumbing
Lead (ppb)	15	0	4.8	0	2020	NO	Corrosion of household plumbing

The Perfect Lawn

You can create a beautiful outdoor space and protect our waters.

A gorgeous home landscape doesn't need to come at the price of clean lakes and streams. We can have both. But to make it happen, we all need to think a little differently. Read these tips. Post this sheet in your garage near the lawnmower and garden tools. This will help us change one habit at a time, so we have good fishing, swimming, paddling and water-skiing when the work is done.

Mowing

Mow often, when the grass is 3.5 inches or shorter. Set your mower blade at 2.5 inches and let cuttings fall. Cuttings keep the soil moist and restore nutrients over time. Any mower works, but a mulching mower shreds grass finely, so you don't have to be as careful about grass height. Make an effort not to blow cuttings onto pavement. If you do, sweep them up, then lay them around the roots of shrubs or vegetable plants where they help retain moisture. If grass gets long and you decide to collect clippings, put them in a pile with other yard waste and let them decompose. Turn the pile now and then, and in 3-6 months you'll have rich organic matter that will make almost anything in your yard grow better.

A healthy, mulched lawn outcompetes weeds for light, nutrients and water. In areas where it's hot, consider prairie grasses or wild flowers instead of turf grass.

Fertilizing & Weed Control

Chemicals and weed killers are not needed for a healthy lawn, and they're one of the main reasons we have green algae in our lakes and streams. Think before you buy. Get a soil test so you know if your lawn needs more nutrients. Mulch to keep the lawn healthy, so it can out compete weeds for light, nutrients and water. If you must fertilize, do it in the fall. Sweep up fertilizer that falls in the street and dispose of it properly—water and fertilizer that go into the street go directly to the river or lake.

Watering

When watering is needed, use a sprinkler that shoots low to the ground. Sprinkle soil, not the street. Shape soil so water will sink in, rather than run off. When you mow, mulch cuttings to retain moisture.

BOARDS & COMMISSIONS

*The Village Board of Trustees
approved the following appointments:*

BOARD OF APPEALS

Jeff Gorges Vacancy term to expire May 2023

JAMES J. SIEBERS LIBRARY NEWS

515 W. Kimberly Ave. • Phone: 788-7515 • www.kimberlypubliclibrary.org

NEW HOURS: Monday - Friday 9-6 and Saturdays 9-1 • Sun Closed

The Kimberly Public Library staff are planning a fabulous line-up of programs and reading activities for your summer enjoyment! Read on for details.

June 7 - July 30 2021 Summer Reading Program "Tails and Tales": something for all ages!

Farm Animal Petting Zoo with Cavanaugh's Carriages

Tuesday, June 8 from 3-6 p.m.

Sunset Park Shelter #1 (West Entrance to top of the hill)

Kick off Kimberly Library's Tails and Tales Summer Reading Program with cute and cuddly critters. Cavanaugh's Carriages of Neenah will showcase miniature horses and donkeys plus other farm animals for the whole family to meet. In addition, enjoy an animal tale with a story walk along the path. Stop by any time during the event for family fun! Thank you to our sponsors: Friends of Kimberly Library and the Kimberly Recreation Association.

Pottery Painting in the Park for Teens and Adults

Tuesday, June 15 from 4:30-6:30 p.m.

Sunset Park Shelter #1 (West Entrance to top of the hill by the playground) **Registration Required**

Teens entering grades 6-12 and adults are invited to paint a piece of pottery from The Fire in Appleton. All supplies will be on hand, and the pieces will be fired and returned to participants to pick up at the Kimberly Library on a later date. Adults will paint a planter, and teens may choose either an owl or panda figurine. Stop by between 4:30-5:30 p.m. to begin the project to be finished by 6:30 p.m. Registration is required for the ages listed as supplies are limited. Call the library at 920-788-7515 to register starting June 1.

Miller & Mike Comedy Show

Thursday, June 17 at 6:30 p.m.

Sunset Park Amphitheater (East Entrance)

Bring a chair/blanket and enjoy the comedy antics of Miller and Mike! Loaded with lots of energy, juggling, and good clean fun, this hilarious show is great for the whole family. Brought to you by the Kimberly Library and sponsored by a grant from the Outagamie-Waupaca Library System.

We Love Animals Story Time

Fridays at 10 a.m. on Facebook Live

June 18 & 25, July 16 & 23

Ms. Ann will share tales about tails of many kinds. Enjoy funny stories featuring animal characters as well as some factual books about favorite creatures. Geared for preschool and early elementary ages.

Birds of Wisconsin

Monday, June 21 at 1:30 p.m.

Sunset Park Shelter #1 (West Entrance to top of the hill by the playground)

Ready for a real tweet? Learn to identify the many birds that make Wisconsin their home with a lively presentation by naturalist Lee Hammen. Geared for 4K-Grade 5, but all ages welcome.

Tom Pease in Concert

Tuesday, June 29 at 10:30 a.m.

Sunset Park Amphitheater (East Entrance)

Bring a chair/blanket and get ready for some great children's music with favorite songster Tom Pease. Brought to you by the Kimberly Library and sponsored by a grant from the Outagamie-Waupaca Library System.

OF KIMBERLY

The Magic of Rondini

Tuesday, July 13 at 10:30 a.m.

Sunset Park Amphitheater (East Entrance)

Be dazzled and amazed as local favorite Rondini performs mesmerizing magic with his sidekick, Einstein the World's Cutest Bunny. Fun for all ages. Bring a blanket/chair for comfy seating.

Animal Tales Writing Workshop for 5th-8th Graders

Tuesday, July 20 at 1:00-2:30 p.m.

Sunset Park Shelter #1 (West Entrance to top of the hill by the playground)

Stretch your creativity and capture your love for animals in this guided writing workshop with author and librarian Jill Van Den Eng. Writing supplies will be provided.

Furry Critters of Wisconsin

Monday, July 26 at 1:30 p.m.

Sunset Park Shelter #1 (West Entrance to top of the hill by the playground)

Are they fur real?! Learn about the various mammals that make Wisconsin their home, presented by naturalist Lee Hammen. Kids will get a chance to see and touch animal pelts and ask questions about their favorite animals. Geared for 4K-Grade 5, but all ages welcome.

For Kids and Teens...

Participate in our Summer Reading Incentive Program. Keep your reading skills sharp throughout the summer and earn fabulous prizes along the way!

For Adults...

The Kimberly Public Library invites you to participate in our whalely awesome adult Summer Reading Program. Read and hike your way to six destinations in order to enter raffles for pawtastic prizes. In addition to your reading quest, pick up a yarn bird craft kit, register for Pottery Painting in the Park, and listen to Heckrodt Wetland Reserve's presentation on owls. We also invite you to pop into the library to see our ongoing Tales and Tails Community Art Exhibit, read cat tales, and donate supplies to keep Safe Haven Pet Sanctuary's special needs cats feline good. Participants may enter for weekly drawings and a grand prize drawing at the end.

Master Gardener Presents Summer Series Features

Composting, May 24 at 7 p.m.

Garden "waste" is not waste, it is a resource. Composting turns this resource into black gold for your garden. Master Gardener Tom Wentzel will discuss the dos and don'ts that will make your pile productive and expose myths about the subject.

Vegetable Diseases, June 28 at 7 p.m.

We put a lot of time and effort into growing our own produce. Keeping your garden healthy is a matter of taking some preventative measures. It is also about recognizing problems early and taking appropriate measures. Kaitlin Bricco, Horticulture Educator for Outagamie County will discuss vegetable diseases, how to identify them, treat them, and prevent them.

Garden Tour, July 26 at 7 p.m.

The Outagamie Master Gardeners Association invites you to a virtual tour of our group of diverse perennial gardens maintained by the association on the campus of the UW Extension Service in Appleton. The virtual tour will last for approximately 1 hour. During that time, you will see each of the several gardens as they change over the summer. We hope you can come and enjoy these gardens from the comfort of your own homes via Zoom. We want to think of this virtual tour as a teaser that will spark your interest in seeing these public gardens in person.

Ongoing Programs

Herb Your Enthusiasm Cooking Club: Join us for our monthly discussion about herbs and spices. Contact Julie at jconrad@kimberlypubliclibrary.org. Cooks of all skill levels are encouraged to participate.

Friday Reads, where librarians help you find your next read by making book recommendations based on a theme or genre, Fridays at 11 am on the Kimberly Public Library Facebook page.

Quaran Stories: A Short Story Discussion Group: read a contemporary or classic short story each week, then meet via Zoom every other week for discussion. Contact Julie at jconrad@kimberlypubliclibrary.org to register.

LitFix BookClub Looking for a bookclub to join? Try this new one that's starting out fresh at the Kimberly Library every first Thursday of the month at 10:00am. Members choose what we read and discuss. In person meetings through the summer will be held outside with the option to join virtually via Zoom. The first meeting will be Thursday, June 3. To join, contact Holly (hselwitschka@kimberlypubliclibrary.org) or find the details on facebook.

How can I find out more? Please register to receive the weekly electronic newsletter of the Kimberly Public Library to receive regular updates. Follow the Kimberly Public Library on Facebook and Instagram or visit our website: www.kimberlypubliclibrary.org.

The Kimberly Public Library is open 9-6 Monday through Friday and 9-1 on Saturdays.

GEARING UP FOR A BUSY 2021 CONSTRUCTION SEASON

The Spring KimTalk issue featured the Stein's development at the corner of Kennedy Avenue and Cobblestone Lane – the Village continues to be excited for another new development at this intersection. The Village is proud to announce the recent ground breaking for the new office of VandenBoom Verstegen High Wealth Management! We are pleased that VandenBoom Verstegen Wealth Management continues to call Kimberly home and we work diligently to ensure a business friendly environment here in Kimberly.

Development project plans for 2021 Cedars redevelopment construction work are progressing. These plans include: multimodal connections, eastern infrastructure improvements and planning, final design of the central public overlook located just west of the hydroelectric plant, and further development of strategies to convert blighted areas into promising opportunities. Village Plan Commission recently approved the newest riverfront apartment development located just east of the former main mill building. This development will include 4 structures, 2-25 unit buildings along the water

and 2-16 unit buildings along Papermill Run. Entertainment amenities along the riverfront will also progress throughout the summer of 2021. Each portion of the development takes time through careful planning and design. The Village is pleased to see significant progress made each year and looks forward to each future phase!

Village staff recently met with the Kimberly Community Development Authority, Plan

Commission and Economic Development Organization to gather feedback and generate ideas to create a cohesive redevelopment and attraction theme throughout the riverfront and existing downtown corridors. These meetings are always open to the public and we welcome your feedback. Highlighting the discussion was progress made along Kimberly Avenue. An example of storefront revitalization and redevelopment is the newly unveiled Birch Street Center! The structure brings back memories of Eitings Supermarket while offering newly updated gathering spaces, a coffee shop and commercial leasing opportunities. Inside you'll find Timber Innovations, Timber Lounge, il Bar Coffeehouse & Bistro, NARI Fox Valley and Illumine Reiki. Welcome back Birch Street Center a shining addition to the Kimberly Avenue corridor.

For information on any available lots, future public improvements or concept proposals please contact Village Administrator Danielle Block at 920-788-7500 or dblock@vokimberly.org.

For the latest Cedars updates and developer information please visit our website at <https://www.vokimberly.org/information/cedars-development-updates/>.
