"The true meaning of life is to plant trees, under whose shade you do not expect to sit." - Nelson Henderson

SUNSET PARK LIVING FOREST

A growing gift for
generations to come

REPLANTING THE FOREST ONE TREE AT A TIME

The Village of Kimberly has sustained significant tree loss as a result of several natural disasters and invasive bugs that are destroying the tree canopy in Sunset Park. With your assistance, we can replant and regain the beautiful lush forests of Sunset Park to be enjoyed by future generations.

Varieties planted will be specially selected to increase the diversity of the canopy and prevent future significant losses due to selective tree pests like the Emerald Ash Borer.

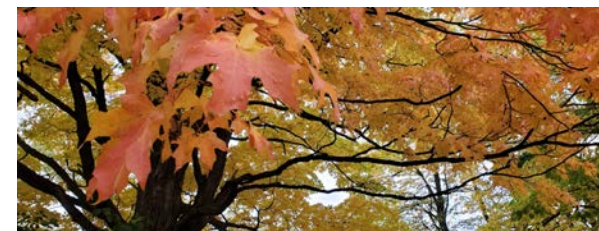

*"Love is like a tree, it grows of its own accord, it puts down deep roots into our whole being."
- Victor Hugo*

When will we plant?

Village crews will order and plant trees as part of our street tree program each spring. Orders received prior to March 15th each year will be included in the annual planting.

What is the cost?

A donation of \$250 supplies one ball and burlap tree to be planted in Sunset Park and includes a name of your choice on the Living Forest plaque placed on the west side of the park at Shelter #1.

Where is my tree?

The GPS coordinates of your tree will be included with your plaque on the Living Forest signage as well as the tree species. Signage will be organized by the year the tree was planted.
